Research Policy

1 Purpose

To establish the framework under which the University manages and enables Research Activities.

2 Scope

This policy applies to all staff, adjuncts and associates, and Higher Degree by Research (HDR) Students.

3 Policy Statement

In support of the UniSQ research plan this policy outlines the Research environment and culture in which Research is activated at the University. For further details on expected standards of conduct, please refer to the Research Code of Conduct Policy.

This policy aligns with:

• Higher Education Standards Framework (Threshold Standards) 2021: Standard 4.1 Research

4 Principles

The University is committed to performing Research that is not only of academic relevance but is engaging with industry and our stakeholders and is contributing to innovation that delivers impact for our communities and the nation.

The University values Research as a fundamental form of learning and considers it to be an essential part of the work of the University. Focussed, high quality Research and Research Training is an integral part of academic work and is expected to contribute to excellence in industry growth, innovation and sustainable communities.

The University's Research and Researchers will:

- 1. meet the standards specified in the Higher Education Standards Framework;
- 2. promote a Research culture of excellence, integrity, professionalism and mutual respect;

- 3. align with the ambitions of the University's strategic plan and research plan to drive industry and community engagement and deliver high impact Research;
- 4. achieve ethical conduct of Research and responsible Research practice;
- 5. meet the occupational health and safety standards necessary for the type of Research being undertaken; and

The University will enable this by:

- 1. providing a system for accurate and up to date recording of the Research Outputs of staff, adjuncts, associates and HDR Students;
- 2. acknowledging that Research with First Nations Peoples or collections spans many methodologies and disciplines; and there are wide variations in the ways in which First Nations Peoples, communities or groups are leading, active in, or affected by, Research;
- 3. establishing (under the authority of the Vice-Chancellor) external and internal research institutes and centres, on the recommendation of the Deputy Vice-Chancellor (Research and Innovation). These research institutes and centres are managed and monitored as outlined in the Research Structures Procedure;
- <u>4.</u> supporting the responsible conduct of Research through the establishment of ethics and biosafety committees, and other relevant administrative support, committees and working groups as required; and
- 5. managing Research Funding Agreements, grants, fellowships, projects and contracts efficiently.
