

# Work Health and Safety Policy

## 1 Purpose

To create a safe and healthy Workplace and environment for University Employees, Students, Contractors, Visitors and other persons to a University Site or Workplace and to define duties with regard to the prevention of Workplace injuries and illness.

## 2 Scope

This Policy applies to all Employees, Students, Contractors and Visitors at a University Site or Workplace.

## 3 Policy Statement

The University has an obligation to ensure the health and safety of its Employees and to ensure that its Employees including Students, Contractors, Visitors and other persons to a University Site or Workplace are, as far as Reasonably Practicable, not exposed to risks to their health and safety arising out of the University's activities.

The University is committed to achieving and maintaining a standard of excellence in the field of health and safety and aims to be recognised as a leader in safety performance within the higher education sector by providing a safe environment to work and study.

## 4 Principles

The University will manage Workplace health and safety through its Safety Management System.

The Safety Management System will also provide a process of continuous improvement with a focus on managing Workplace risks.

## 5 Responsibilities

The University requires those responsible for any activities on a University Site or Workplace to comply with the University Safety Management System and all relevant legislation, including the *Work Health and Safety Act 2011* (Qld), applicable codes of practice and standards.

The Deputy Vice-Chancellor (Enterprise Services) is responsible for approving any material change to the University's Safety Management System.

University Officers must exercise due diligence to ensure that the University complies with its duties or obligations under common law and all relevant legislation. Due diligence includes taking steps:

- to acquire and keep up-to-date knowledge of work health and safety matters
- to gain an understanding of the nature of the operations of the business or undertaking of the University and generally of the hazards and risks associated with those operations
- to ensure that the University has available for use, and uses, appropriate resources and processes to eliminate or minimise risks to health and safety from work carried out as part of the conduct of the business or undertaking
- to ensure that the University has appropriate processes for receiving and considering Information regarding incidents, hazards and risks and responding in a timely way to that Information
- to ensure that the University has, and implements, processes for complying with any duty or obligation of the University under the Act
- to verify the provision and use of the resources and processes mentioned above.

University Employees, Students, Contractors, Visitors and other persons on a University Site or Workplace are responsible for and are required to:

- take care for their own health and safety
- take care that their acts or omissions do not adversely affect the health and safety of other persons
- comply with any instruction that is given by the University with regards to safety
- comply with any Policy or Procedure of the University relating to health or safety at the Workplace and in particular the Safety Management System
- report incidents and any unsafe conditions or issues that come to their attention.

## 6 Procedures

The Procedures for the purpose of compliance with this Policy are set out in the University Safety Management System.

## 7 References

Nil.

## 8 Schedules

This policy must be read in conjunction with its subordinate schedules as provided in the table below.
