Misrepresentation and Falsification

1 Definition

Representing data or information incorrectly, improperly or falsely.

Examples of Misrepresentation and Falsification may include but are not limited to:

- Intentional and unauthorised falsification or invention of any information, experimental data or citations in an assessable item;

- presenting an untrue statement about attendance or participation in practical, performance or professional learning activities for Assessment purposes;

- submitting a text/code-matching software originality report that falsely represents the originality of an assignment submitted for Assessment;

- not disclosing any information where there is a duty to disclose such information; and

- providing false information concerning a formal academic exercise, for example, giving a false excuse for missing a deadline or falsely claiming to have submitted work.
