

Course Specifications Requirements Schedule

1 Purpose

To set out the data requirements for Course Specifications.

2 Scope

This schedule must be read in conjunction with the Course Management Procedure and is subordinate to it.

3 Schedule

As the University is required to collect and archive detailed Information about a Course, data fields captured in the Course Specification system are managed as outlined in Table 1 below. Information includes:

1. Data Level - outlines the categorisations for the data contained within the Course Specification system. These categorisations are broadly defined by the University but are managed by Systems Administrators through the Course Specification system and are not outlined in detail in these procedures.
2. Data Fields - describes the data fields and any procedural requirements.
3. Approval Pathway - outlines the approval requirements for editing a particular data field. For all Data Levels, approvals exclude typographical edits, such as spelling or punctuation corrections or other administrative data entry errors (e.g. incorrect offering or Field of Education was entered in accreditation approval submissions or Program Change Proposals). Typographical or data entry errors may be edited by Course Coordinators or other responsible officers at any time and submitted to Systems Administrators to review for quality assurance purposes, prior to publication.
4. Publication Type - defines whether data fields are public or administrative. Administrative access restricts data to only Employees and therefore is not publicly available. Public data assumes that Employees also have administrative access to that data. Public data are published through the University's Handbook system.
5. Publication Timeline - sets out the due date for publication

[Assumed Knowledge](#)

Assumed knowledge is the foundational knowledge and related skills considered necessary for Students commencing studies at UniSQ and are desirable for successful university level study. Assumed knowledge is equivalent to satisfactorily completing senior secondary studies (Years 11 and 12) in specified subjects. For example, assumed knowledge of English is equivalent to completing four semesters of senior secondary school English (Years 11 and 12), at the sound achievement level (4, SA). If Students do not have the assumed level of knowledge for their program, they may still receive an offer of a place at UniSQ and can still enrol in courses. However, Students are urged to consider the impact not having the assumed knowledge may have on their ability to succeed in their studies. Students who do not have the required level of assumed knowledge are advised to undertake UniSQ preparatory or bridging courses, or other appropriate study preparation, prior to or during the first year of study. It is the responsibility of the Student to have the assumed knowledge specified for the program or course.

[Census Date](#)

The date on which the Student's enrolment related requirements must be finalised in line with the University's important dates. A Higher Education Provider must, for each unit of study it provides or proposes to provide during a year, determine for that year, a particular date to be the Census Date for the unit. Students are responsible for meeting the University's Census Date deadline and must check that all enrolment and payment details are correct on or before the Census Date.

[Commonwealth Supported Place](#)

A place at an approved provider that is subsidised by the Australian Government so that Students only have to pay 'student contribution' amounts for their units of study.

[Course](#)

A discrete element of a program, normally undertaken over a single Study Period, in which the Student enrolls, and on completion of which the Student is awarded a grade.

[Course Specification](#)

A written specification of the objectives, content, assessment methods, and other relevant details of a Course.

[Course Team](#)

Consists of the Course Coordinator and Moderator of the Course and any other people involved with the preparation, delivery and grading of the Course.

[Coursework](#)

A method of teaching and learning that leads to the acquisition of skills and knowledge and does not include a major research component.

[Employee](#)

A person employed by the University and whose conditions of employment are covered by the Enterprise Agreement and includes persons employed on a continuing, fixed term or casual basis. Employees also include senior Employees whose conditions of employment are covered by a written agreement or contract with the University.

[Enrolment](#)

The process of admitting Students to one or more Courses for the current Academic Year.

[Field of Education](#)

A classification of programs, specialisations and courses of study, with the same or similar vocational emphasis or principal subject matter.

[Graduate](#)

A Student upon whom Council has conferred an Award.

[Head of School/College](#)

An academic staff member responsible for the administration of the Course offerings in one or more discipline areas.

[Information](#)

Any collection of data that is processed, analysed, interpreted, organised, classified or communicated in order to serve a useful purpose, present facts or represent knowledge in any medium or form.

This includes presentation in electronic (digital), print, audio, video, image, graphical, cartographic, physical sample, textual or numerical form.

[Learning Outcomes](#)

The expression of the set of knowledge, skills and the application of the knowledge and skills a person has acquired and is able to demonstrate as a result of learning.

[Level](#)

The stage of a program specified for completion during the equivalent of a single Academic Year of Full-time Study.

[Procedure](#)

An operational instruction that sets out the process to operationalise a Policy.

[Program Learning Outcomes](#)

Program Learning Outcomes are the expression of the set of knowledge, skills and the application of the knowledge and skills a person has acquired and is able to demonstrate as a result of completing a Program.

[Research](#)

Research is the creation of new knowledge and/or the use of existing knowledge in a new and creative way to generate new concepts, methodologies, inventions and understandings. This could include the synthesis and analysis of previous research to the extent that it is new and creative.

[Student](#)

A person who is enrolled in a UniSQ Upskill Course or who is admitted to an Award Program or Non-Award Program offered by the University and is: currently enrolled in one or more Courses or study units; or not currently enrolled but is on an approved Leave of Absence or whose admission has not been cancelled.

[Study Period](#)

The period during which a Course or study unit is offered. Examples of Study Period include, but are not limited to, semesters, trimesters, blocks, intensives and sessions.

	<p>Unit</p> <p>This is an indicator of the value of a Course. Most Courses are valued at one Unit. Units are used to track progress towards completing a program. (The term used prior to 2002 to describe a Course)</p> <p>University</p> <p>The term 'University' or 'UniSQ' means the University of Southern Queensland.</p>
