

# Research Training Program Scholarship Procedure

## 1 Purpose

To outline the Research Training Program (RTP) Scholarship parameters.

## 2 Scope

This procedure applies to all Higher Degree by Research (HDR) Applicants and enrolled Students.

## 3 Procedure Overview

This procedure outlines the management of the RTP Scholarships.

## 4 Procedures

The University administers the RTP on behalf of the Australian Government Department of Education and Training, who provides block grant funds through the Research Training Program to support domestic and international candidates undertaking HDR studies.

The allocation of funds associated with the RTP block grant is reviewed annually through the University budget-setting process.

A Scholarship may provide one or both of the following types of support:

- An RTP Fees Offset Scholarship to meet the full cost of an HDR Student's Tuition Fees.
- An RTP Stipend Scholarship to support the general living costs of an HDR Student through fortnightly payments for the standard duration of the HDR Program.

### 4.1 RTP Fees Offset Scholarship

#### 4.1.1 Eligibility and Conditions

To be eligible for an RTP Fees Offset Scholarship, a Student must be enrolled in an HDR Program.

Scholarship recipients must not be receiving an equivalent Award from the Australian Government designed to offset HDR Tuition Fees.

International Students are only awarded an RTP Fees Offset Scholarship as the result of a competitive selection process. Please see the Higher Degree by Research Student Scholarship Procedure for further details.

Domestic Students eligible for a full RTP Fees Offset Scholarship are those who have not used any RTP Fees Offset or Research Training Scheme funding in the previous three years at any Australian University, or have already used the RTP Fees Offset funding and have successfully completed an HDR Program. Students must be enrolled as per the Higher Degree by Research Student Admissions and Enrolments Procedure and are required to make satisfactory progress in their studies as per the Higher Degree by Research Student Progress Procedure.

#### **4.1.2 How to Apply**

Domestic RTP Fees Offset Scholarship Applicants are assessed for eligibility at the point of application into an HDR Program. No separate application is required.

International Students are only awarded an RTP Fees Offset Scholarship as the result of a competitive selection process. Please see the Higher Degree by Research Student Scholarship Procedure and the University Scholarships website for further details.

#### **4.1.3 Value and Duration**

The RTP Fees Offset Scholarship covers the full cost of the program fees for an HDR Student for:

- Three (3) years full time or six (6) years part time for doctoral candidates
- Two (2) years full time or four (4) years part time for masters candidates

Doctoral candidates may request an extension of the RTP Fees Offset Scholarship of up to 12 months beyond the above period of support by submitting an extension of candidature request online.

Tuition Fees Scholarships do not cover the Student services amenities fee or other Student fees that may be introduced by the University.

A candidate who remains enrolled beyond their stated period of supported RTP Fees Offset Scholarship will be liable for paying the fees for their remaining candidature.

The RTP Fees Offset Scholarship support period is calculated based on the HDR program commencement date, which may or may not have occurred at a previous University and may or may not have been supported by the RTP. The candidate's period of support will be increased for any periods of leave approved by the University as per the Higher Degree by Research Student Admissions and Enrolments Procedure.

Periods of RTP Fees Offset Scholarship will be impacted if candidates:

- Take a period of leave from studies
- Do not maintain Enrolment
- Have submitted their Thesis
- Do not maintain satisfactory progress
- Were previously awarded an RTP Fees Offset Scholarship at another Higher Education Provider (HEP) and did not complete the program
- Were previously awarded an RTP Fees Offset Scholarship for an HDR Program at the University and did not complete the program
- Transfer between HDR Programs of HEPs

Candidates should refer to the Higher Degree by Research Student Admissions and Enrolments Procedure and Higher Degree by Research Student Progress Procedure for further information on the above.

## **4.2 RTP Stipend Scholarships**

### **4.2.1 Eligibility and Conditions**

To be eligible for an RTP Stipend Scholarship a Student must typically be undertaking Full-Time Study in an HDR Program, and not be receiving a Stipend from another source which is greater than 75% of the RTP Stipend Scholarship rate. Income unrelated to the Student's program, or income received for the Student's program but not for the purpose of supporting general living costs, will not be taken into account.

RTP Stipend Scholarships offered by the University are not transferable to other universities. For Students transferring to the University, an RTP Stipend Scholarship will only be awarded after a competitive selection process. Please refer to the Higher Degree by Research Student Scholarship Procedure and the University Scholarships website for further information.

### **4.2.2 Value and Duration**

Each year the Australian Government Department responsible for Higher Education sets a minimum and maximum rate of Stipend. At the University all Students will normally receive the same Stipend rate, which will be set between the minimum and maximum amounts. The amount of the Stipend will not change during the candidature period.

The duration of an RTP Stipend Scholarship is:

- Three (3) years full time or six (6) years part time for doctoral candidates
- Two (2) years full time or four (4) years part time for masters candidates

Periods of study undertaken in the HDR Program prior to the commencement of the Scholarship will be taken into account. Scholarships will be adjusted accordingly for Stipend recipients studying part-time.

The candidate's period of support will be increased for any periods of leave approved by the University as per the Higher Degree by Research Student Scholarship Procedure.

### **4.3 Employment Conditions**

Scholarship recipients are permitted to engage in paid employment providing it does not interfere with the satisfactory progress of their study. Any work undertaken would also have to meet the conditions of a Student visa.

### **4.4 Provisions for Transferring Students**

Students transferring to the University will be required to provide information from their previous University regarding program commencement date and Equivalent Full-Time Student Load (EFTSL) consumed in that program, so that the correct RTP period can be calculated. If the Student is transferring away from the University, on request the University will provide this information to the University the Student will now attend.

### **4.5 Provisions for Changing HDR Enrolment**

Where an RTP Scholarship recipient commences studies in a masters by research program and then changes Enrolment to a doctoral program, the Student is entitled to a maximum of four years Full-Time equivalent study, including the time enrolled in the masters by research program.

In the circumstances where an RTP Scholarship recipient is required to change Enrolment from a doctoral program to a masters by research program, the Student is limited to support for a maximum duration of two years Full-Time equivalent including the time enrolled in the doctoral program.

### **4.6 Provisions for Changing Topic and/or Field of Research**

Where an RTP Fees Offset Scholarship or RTP Stipend Scholarship recipient changes their topic and/or field of research, the duration of the Scholarship remains the same and is not extended.

## 4.7 Arrangements for Continuing Students

Domestic Students supported or offered support under the former Research Training Scheme will be offered an RTP Fees Offset Scholarship for the duration necessary to provide at least equivalent support to that which the Student would have received under the Research Training Scheme.

Overseas Students supported or offered support under the former International Postgraduate Research Scholarships will be offered an RTP Fees Offset Scholarship for the duration necessary to provide at least equivalent support to that which the Student would have received under the International Postgraduate Research Scholarship.

Students supported or offered support under the former Australian Postgraduate Awards will be offered an RTP Stipend Scholarship for the duration necessary to provide at least equivalent support to that which the Student would have received under the Australian Postgraduate Awards.

## 4.8 Industry Engagement

HDR Students are encouraged to undertake industry placements, research internships, professional practice activities or other similar activities during their candidature. Where Students are funded by an RTP Scholarship, the activities must relate closely to the Thesis research topic.

RTP Fees Offset Scholarship Students may have their Scholarship extended by the duration of the placement, internship, or professional practice activity up to the maximum period of RTP support.

RTP Stipend Scholarships may be available for the duration of industry placements, research internships and professional practice activities if:

- The Student already holds an RTP Stipend
- There is no other income associated with these activities
- The maximum duration of the HDR Program has not been reached
- The Thesis examination process has not been finalised

Students undertaking a placement, internship, or professional practice are not eligible to have their RTP Stipend Scholarship extended beyond the maximum period of RTP support.

## 4.9 Mandatory Acknowledgement

The Australian Government's contribution must be acknowledged when the recipient of an RTP

Scholarship, their supervisor or any other party publishes or produces materials, such as books, articles, newsletters or other literary or artistic work which relate to the research project carried out by the recipient of the RTP Scholarship. This applies during and after the completion of the program of study. The Australian Government's contribution must also be acknowledged in the Thesis. The acknowledgement statement should read: "This research has been supported by an Australian Government Research Training Program Scholarship".

## 4.10 Grievances

Students who wish to request a review of a Decision made by the University in respect of a Scholarship should do so in accordance with the Student Grievance Resolution Procedure.

## [Research Misconduct](#)

Breaches of the University Research Code of Conduct and the Australian Code for the Responsible Conduct of Research occur on a spectrum, from minor (less serious) to major (more serious). Some major/serious breaches may be regarded as 'research misconduct'. The University uses the definition recommended in the National Health and Medical Research Council Guide to Managing and Investigating Potential Breaches of the Australian Code for the Responsible Conduct of Research and defines Research Misconduct as a serious breach of the Code which is also intentional or reckless or negligent. The use of the term Research Misconduct for serious breaches will be considered in the context of other institutional processes, Regardless of whether a Code investigation and an investigation done under an employment or student disciplinary agreement are separate or integrated, the University will take all reasonable steps to ensure that these do not conflict, or hinder the timely implementation of all corrective actions. Research misconduct does not include honest differences in judgement. Unintentional errors do not usually constitute research misconduct unless they result from behaviour that is reckless or negligent. Repeated or persistent breaches will likely constitute a serious breach, which will trigger

consideration of Research Misconduct.
